THE HOUND OF
THE BASKERVILLES

SIR ARTHUR
CONAN DOYLE

WITH AN AFTERWORD BY ANNE PERRY

The Hound of the Baskervilles

The book showed that two names had been added after that of Baskerville. One was Theophilus Johnson and family, of Newcastle; the other Mrs. Oldmore and maid, of High Lodge, Alton.

"Surely that must be the same Johnson whom I used to know," said Holmes to the porter. "A lawyer, is he not, grey-headed, and walks with a limp?"

"No, sir, this is Mr. Johnson the coal-owner, a very active gentleman, not older than yourself."

"Surely you are mistaken about his trade?"

"No, sir; he has used this hotel for many years, and he is very well known to us."

"Ah, that settles it. Mrs. Oldmore, too; I seem to remember the name. Excuse my curiosity, but often in calling upon one friend one finds another."

"She is an invalid lady, sir. Her husband was once Mayor of Gloucester. She always comes to us when she is in town."

"Thank you; I am afraid I cannot claim

him. Every day we hoped that he was gone, but as long as he was there we could not desert him. That is the whole truth, as I am an honest Christian woman, and you will see that if there is blame in the matter it does not lie with my husband, but with me, for whose sake he has done all that he has."

The woman's words came with an intense earnestness which carried conviction with them.

"Is this true, Barrymore?"

"Yes, Sir Henry. Every word of it."

"Well, I cannot blame you for standing by your own wife. Forget what I have said. Go to your room, you two, and we shall talk further about this matter in the morning."

When they were gone we looked out of the window again. Sir Henry had flung it open, and the cold night wind beat in upon our faces. Far away in the black distance there still glowed that one tiny point of yellow light.

eyes, gazing down the narrow valley before them.

“The company had come to a halt, more sober men, as you may guess, than when they started. The most of them would by no means advance, but three of them, the boldest, or, it may be, the most drunken, rode forward down the goyal. Now, it opened into a broad space in which stood two of those great stones, still to be seen there, which were set by certain forgotten peoples in the days of old. The moon was shining bright upon the clearing, and there in the centre lay the unhappy maid where she had fallen, dead of fear and of fatigue. But it was not the sight of her body, nor yet was it that of the body of Hugo Baskerville lying near her, which raised the hair upon the heads of these three dare-devil roysterers, but it was that, standing over Hugo, and plucking at his throat, there stood a foul thing, a great, black beast, shaped like a hound, yet larger than any hound that ever mortal eye has rested upon.

It would be hard to nominate a more well-known character in English literature than that of the austere analytical detective Sherlock Holmes, created by Arthur Conan Doyle in the late 1880s. The Hound of the Baskervilles is arguably the best, and certainly the most popular, of Doyle's novels featuring his iconic detective.
